EDUCATION

Bachelor of Computer Science | IIUI, Islamabad | 2021 – 2025

- **Final Year Project: ParkSense** (React Native, Nodejs, Firebase, Express APIs)-App for reporting wrongly parked vehicles with QR scanning, anonymous chat, masked calls, and Firebase backend. | [Project Code](#)
-

WORK EXPERIENCE

Mobile Application Developer Intern | *UExel Solutions Pvt Ltd* | November 2025 - Present | Islamabad, PK

- Developed high performance cross-platform mobile apps using **React Native** and **TypeScript**, delivering seamless user experiences across iOS and Android.
- Integrated **RESTful APIs** and third party libraries to build dynamic, efficient and feature-rich mobile applications.
- Collaborated with cross-functional teams to design and deliver scalable mobile solutions and optimized code.

DTS GB APP / [Project Code](#)

- Integrated **REST APIs** with **Swagger documentation** for data fetching, authentication, and permit/ document management.
- Built **document upload and in-app preview** (images & PDFs) and **screen security (FLAG_SECURE)** for sensitive data.
- Implemented **role-based access control and data filtration** for multiple user roles (admin, inspector, user).
- Optimized **UI/UX for fast workflows** in emergency and verification scenarios, including splash screen logic and navigation with **React Navigation**.
- Managed **device permissions, loading states, and error handling** for seamless app performance.

Kalash Kitchen (POS & Food Ordering App) / [Project Code](#)

- Developed a POS-based mobile app using React Native with menu browsing, ordering, and real-time tracking
 - Integrated Stripe payments and implemented order management, status handling, and Preparation time updates
 - Connected to backend via REST APIs, using Redux Toolkit for state management and PostgreSQL for data storage.
-
